

PRESS RELEASE 11/2010

RTT AG welcomes new board member

Former supervisory board member strengthens Sales & Solutions organization

Munich, 6 August 2010 – Realtime Technology (RTT) AG announced today that Roberto Schettler was appointed as a management board member, and is jointly responsible for the Sales & Solutions division. Together with both founders Ludwig A. Fuchs and Christoph Karrasch, he will strategically expand developments in this business segment further and consolidate the position of RTT as a market leader.

Schettler has more than 20 years of work and international experience. His expertise is based in the automotive industry and telecommunications field, as well as in the electronics, software and hardware industries. He also has experience in financial services. In the past nine years, Schettler worked as a senior partner for the consultancy THINKTEAM.

Schettler has been a member of the supervisory board at RTT AG since 2006.

“I’ve been fascinated by the RTT team and their products for years. Being a part of RTT is thrilling and provides an exciting challenge. I am pleased to add my experience and skills to the RTT success story and push it even further,” explains Schettler.

Christoph Karrasch, co-founder and board member of RTT AG added, “Roberto is an experienced decision maker who is very familiar with the company as well as with our product portfolio from his time as a supervisory board member. His comprehensive experience in the automotive and high tech sectors offers us an excellent starting position to speed up and push our activities in the worldwide Sales & Solutions business division.”

RTT AG

Realtime Technology (RTT) AG stands for creative, fascinating 3D visualization solutions which provide an informative context for the products and make them accessible in realtime. The company supports its customers throughout the entire lifespan of the products – from the development to the design, marketing and sales. The 3D data model forms a working basis for all of the subsequent steps in the product life cycle such as fast, computer-generated, realistic and photo-like product illustrations for marketing purposes or an online 3D product configurator for the website. In this way, RTT speeds up the decision-making and development process of its customers as well as opening up new channels in the marketing and sales process. The company was founded in 1999 and is based in Munich, Germany. RTT AG is represented at 14 different sites worldwide with some 400 employees in total. Renowned companies across the world trust in the quality of RTT. These include Adidas, Audi, BASF, BMW, Bosch, Daimler, EADS, Harley-Davidson, Miele, Porsche, Samsung, Thyssen-Krupp, Toyota and Volkswagen. RTT AG is a listed

public limited stock corporation (Xetra: R1T; WKN: 701220; ISIN: DE0007012205). For more information, please visit www.rtt.ag.
